

FAASafety Team presents:

'Sunday Morning Hangar Talk' - Special Topic: Flaps or No Flaps with Wind?

Very casual round table discussion (often motivated by videos) wherein your stories, questions, opinions and comments will serve as the tasty appetizers on our checklist.

Each month we'll address some pertinent ABCs of ADM; we'll examine some current accidents, talk about pilot technique and avoiding LOC. CFI's on hand to provide several viewpoints and opinions.

Hopefully, everyone will discover something that will improve their own pilot skills and knowledge bank.

Designed to emulate the old days when there really was hangar talk, donuts & coffee. The Pilot's Lounge is a comfortable intimate area with tables, chairs & upholstered furniture.

Directions: Enter the airport area at the Osborne St. main entrance near the intersection of Osborne and San Fernando Road. Plenty of free parking. Drive to far end of lot near Airport Manager's office.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
